

**Successfully managing safe aircraft operations
by the numbers is a complex and demanding challenge.**

Hundreds of details. Every flight.

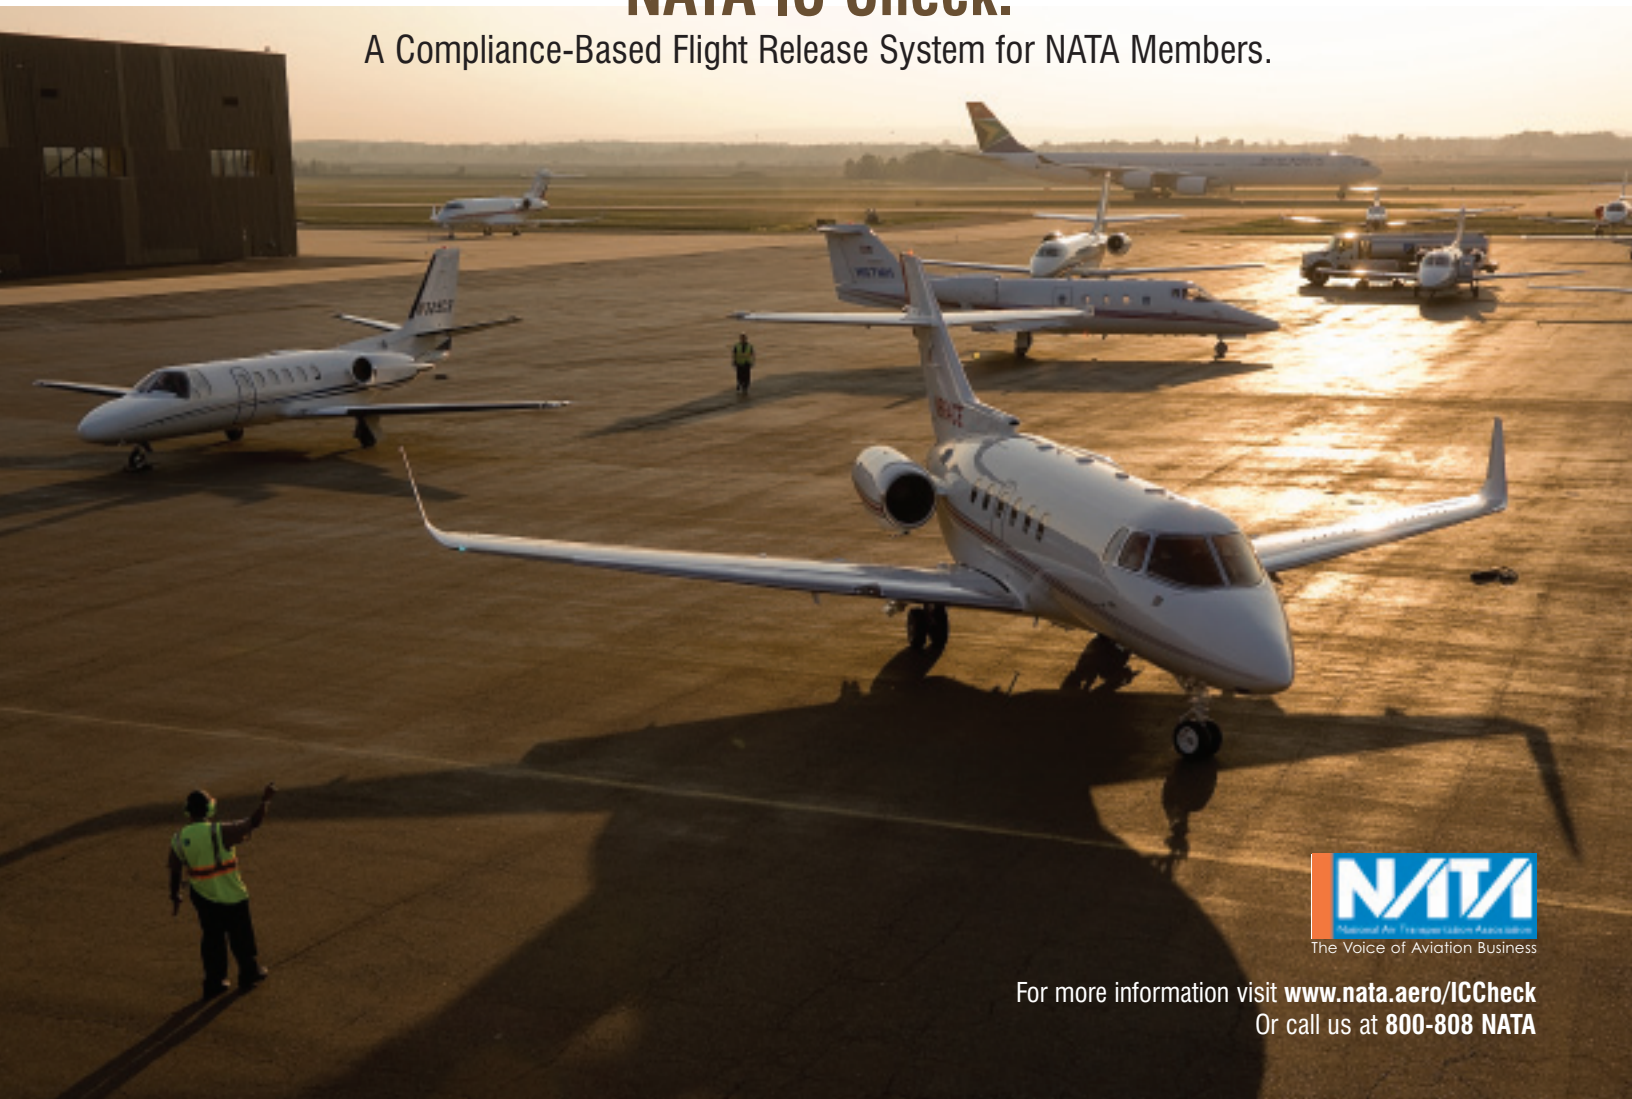

For serious aircraft operators, there has to be a way to confirm and track compliance with...

- ✓ the FARs - 91, 91(K) or 135
- ✓ all other government regulations
- ✓ your own company standards
- ✓ your customer's requirements
- ✓ industry standards
- ✓ and insurance requirements

...in one place ...in two minutes. **Now, there is.**
