Massachusetts Considering Legislation to Repeal Tax Exempt Program

On Tuesday, June 9th, the Massachusetts Joint Committee on Revenue will hold a [public hearing](#) on a number of business related pieces of legislation including [S.1453](#), section 21 of which would consider a transfer of an interest in an aircraft to be considered a transfer of tangible personal property. The sale and purchase of aircraft is currently tax exempt in Massachusetts and passage of the bill will provide neighboring states a competitive advantage. Massachusetts members are urged to contact their state legislators in opposition to the bill. For more information contact [MBAA](#).
