

## SAN Update

### **Idaho Tax Exemption Legislation Becomes Law**

On March 9, 2012, Idaho Governor C.L. Otter signed into law a bill that exempts aircraft parts, supplies and maintenance from the state's sales and use taxes. The legislation passed in the Senate on February 28, 2012, and was given to the governor for approval on March 5, 2012.

Passage of [Idaho House Bill 417](#) provides more jobs at the state's 26 maintenance and repair stations, as well as increases competitiveness among the facilities with those of surrounding states that do not have the tax. Over the next five years, it is estimated that more than 100 new jobs will be created through the legislation due to more work being performed in Idaho.
