Minnesota, top right
New York, top center
Vermont, top center
Washington, top right

Notes on State Issued DL/ID cards

REAL IDs have stars. The stars can vary by state and may be inside a symbol of the state or other important state symbol (e.g., a bear for California).

Non-compliant cards may have the words “Not valid for Federal Use” or words to that effect. Non-compliant DL/IDs do NOT have a star. DL/IDs that were issued before a state became REAL ID certified are called legacy cards. They do not have a star and may not indicate “Not for Federal Use”. They are not REAL ID compliant and not acceptable for identity verification.

Enhanced Driver's licenses (EDLs) include the word ENHANCED, have a chip and the symbol of the U.S. Flag and a machine-readable zone (MRZ). EDLs are REAL ID compliant. States offering EDLs: Michigan, Minnesota, New York, Vermont, Washington.
